THE NAVY BILL IN THE SENATE.

The House Considers a New Land Bill—Private Pension Bills Disposed Of—Etc.

SENATE.

WASHINGTON, July 25.—Senator Mitchell, to-day, proposed an amendment to the sundry civil appropriation bill to appropriate \$60,000 for the establishment of a lightship to be provided with a fog signal apparatus outside of the bar at the mouth of Columbia River, Oregon.

Cullom offered a preamble and resolution reciting the published statements that the Minneapolis, Sault Ste. Marie & Atlantic railroad and the Duluth South Shore and Atlantic Railway have passed into the control of the Canadian Pacific Railway Company. That those two railways control all the approaches to the bridge of St. Mary's river on the boundary line between the United States and Canada; that the ownership of that bridge is also in Canadian hands, and by virtue of this monopoly the Canadian Pacific Railroad, operated in the interest of a foreign government, is enabled to ignore and defeat the operations of the inter-state commerce bill, and directing the committee on inter-state commerce to inquire into these matters and ascertain whether any legislation is necessary to protect the interest of the United States. Laid over till tomorrow.

The Senate then resumed consideration of the naval appropriation bill, the pending question being on the amendments striking out of the bill the item for expenses of the commission to locate the navy yard and docks on the gulf coast.

Mitchell moved to add a clause with a like provision for the selection of a site on the Pacific Coast in Oregon, Washington Territory, or Alaska. Agreed to.

Plumb moved to reduce the appropriation from \$25,000 to \$15,000. Agreed to. Finally the amendment was rejected. Yeas 19, nays 21. So the provision was retained in the bill modified (on motion of Reagan,) by including the Mississippi river. The clause now appropriates \$15,000 for the expenses of three officers to be appointed by the Secretary of the Navy to report as to the most desirable location on or near the coast of the Gulf of Mexico, or on the Mississippi river for the navy yard and docks for shipping and for expenses of sounding and surveying and estimating the expenses and direct a like commission for the Northern Pacific Coast, \$5,000 of the \$15,000 to be applicable to that purpose.

The next reserved vote was on the amendment to strike out of the bill the words "at least one of said vessels shall be built in one of the navy yards of the United States." The amendment was agreed to, and then the bill passed.

The Senate bill appropriating \$8,500 for a public building at Allentown, Pennsylvania, was passed. The Allentown bill vetoed by the President appropriated \$10,000. The Senate then proceeded to pass the private pension bills on the calendar. It disposed of all of them—127 in all.

HOUSE.

The House took up and considered a bill to establish a United States land court and to provide for a judicial investigation and the settlement of private land claims in the Territories of Arizona and New Mexico and the State of Colorado. It establishes a United States land court to consist of a chief justice and two associate justices, appointed by the President and with the advice and consent of the Senate. Smith, of Arizona, offered an amendment exempting Arizona from the provisions of the bill, contending that it would prove to be a great hardship to bona fide settlers in that Territory.

McCreary, of Kentucky, inquired whether the gentleman had not received a petition from the Bar Association of Arizona in favor of the bill. Smith—"That is it; the land grant lawyers will get very rich out of this bill if it is passed."

McCreary contended that it was in justice to the people of New Mexico and Colorado, as well as justice to the people of Arizona. The United States government demanded that the private land claims in that Territory should be settled, and he argued the pending bill presented the best practical method of settlement.

Joseph, of New Mexico, favored the bill, declaring the people of his Territory were a unit in advocating its passage.

Thompson, of Wisconsin, opposed the amendment, asserting that in Arizona a most bold, reckless and gigantic scheme of robbery had been attempted in relation to land grants.

The amendment was adopted, reducing from forty to twenty years the period of continuous occupancy, which shall be evidence of title or ownership. The amendment was adopted giving right of appeal from the department court to the court en banc in all cases. Smith's amendment, exempting Arizona from the provisions of the bill was agreed to, 40 to 29, and the bill as amended was passed, 70 to 24. The House took a recess, the evening session to be for the consideration of bills reported from the committee on war claims.

Nothing was accomplished at the evening session, the time being spent in useless filibustering.

A DEPRAVED SCOUNDREL.

Facts Brought Out at the Examination of William Winwood.

William Winwood, of West Jordan, who was arrested on Tuesday on the charge of fornication, was examined before Commissioner Norrell yesterday morning. The case is one of the most peculiar ever brought to light here, and from his own testimony, the defendant is a depraved scoundrel who richly deserves a term in the Penitentiary. From the evidence it appears that Winwood went to West Jordan about two years ago, and soon after commenced paying attention to a young lady there. In about a year the couple became engaged, and the wedding was to have taken place last December. The engagement, however, was broken off, and it was afterwards developed that he had seduced the young lady. Winwood then commenced keeping company with another young lady, and also became engaged to her. The marriage was set for Tuesday morning, at 10 o'clock, and when this fact became known to his first victim, Miss Hicks, she came to this city and made a complaint charging him with fornication. Winwood was arrested only a short time before the hour fixed for the marriage ceremony by Deputies Cannon and Franks and brought to this city, and the wedding did not therefore come off.

The defendant admitted the truth of the charge, and promised to marry the girl whom he had so basely deceived and wronged, and Mr. Clarke, of the prosecution, said that he would consent to such an arrangement. He afterwards had an interview with the second girl, and as a result, refused to fulfill his promise to marry Miss Hicks. The defendant was held to await the action of the Grand Jury, which meets in September.

LOCAL BRIEFS.

THE COOKS and waiters at Garfield struck last night.

AT GARFIELD BEACH on Tuesday night, two young fellows became involved in a quarrel, and one hit the other over the head with a cane, inflicting a severe wound. The injured man then drew a knife, and slashed his opponent on the arm. The combatants were taken to Tooele by Sheriff McBride.

THE UTAH Chemical Works is the name of a new company which has been organized for the purpose of manufacturing from the crude material all kinds of chemicals, for which there is most excellent opportunity in this Territory. They have ordered the necessary apparatus and will soon be in running order. Further particulars will be given as they develop.

YESTERDAY AFTERNOON, as William George, an expressman, was returning to his home in the Eleventh Ward, he was thrown from his wagon, and his neck broken. He was taken to his home, and medical aid summoned, but death ensued before the physician arrived. He leaves a wife and several children. It is a somewhat remarkable coincidence that his father was thrown out of a wagon some twelve years ago, and had his neck broken.

IN THE Tribune's report of Tuesday's baseball game, Mr. Golding's umpiring was severely and unjustly criticised. The only mistake that he can be accused of is that he called a man out for not running to first base, after he had been struck by a ball. This error, however, did not affect the result, as the decision was afterwards reversed, and the man given his base. So far as Mr. Golding and the public generally being satisfied with Mr. Golding, the statement is entirely false. He will umpire to-day's game.

MR. CHAPPELL, the owner of the race horse Jim Lick, was arrested at the instance of J. M. Kennedy and Mr. Gerrans for grand larceny. These gentlemen advanced Chappell \$350 to bet on his horse in the race with Policy on Tuesday last, and after the race, got out an attachment on the animal to secure themselves. The horse soon afterwards disappeared, and it was supposed that Chappell had taken him away. Soon after the arrest, however, he turned the racer over to Kennedy and Gerrans, and was released. The new owners of Lick stated that they were willing to run him again against Policy, and Barney Harvey says they have only to put up the money, and the match will be made.

AT ABOUT 5:30 P.M., yesterday, while Edgar Fouks and his family, who reside near the mouth of the Jordan, were returning home in a buggy, a bolt broke, letting the singletree down. One horse turned quickly around, and upset the vehicle. Mrs. Fouks was thrown violently to the ground, and was severely injured, while her little boy had his neck broken, and cannot live. The father and another child who was in the buggy, were uninjured. Mrs. Fouks and the injured child were taken to the house of Joseph Burnes, some distance north of the Warm Springs, near which the accident occurred, and Dr. Benedict summoned. They were afterwards taken to the Deseret Hospital.

DR. BREDEMAYER was in court again yesterday, this time to answer to two indictments—one charging assault with intent to kill, and the other assault. To the first he pleaded guilty of assault only, and a plea of not guilty was also entered. In both cases a fine of \$100 and costs was imposed, and an order made committing the doctor to the care of the Marshal until the amounts were paid. The judge took advantage of the occasion to read the defendant a little moral lesson; such a one as the average listener would very aptly believe, but which was hardly relished by the defendant. Both fines and costs were paid soon after sentence was passed. The doctor was released from the bonds recently imposed upon him to keep the peace, and his bondsmen exonerated.

FREIGHT REDUCTION.

Utah Rates Are Materially Lowered.

THE IMMIGRATION INQUIRY.

Some Interesting Facts Brought to Light—Golden Wedding of the Grand Old Man and Wife.

Reductions in Utah Rates.

New York, July 25.—Yesterday was probably the most disastrous of the season in the war on freight rates. The action of the Chicago & Alton in making its rates of \$1.20 and 72 cents per 100 pounds on dry goods and cotton piece goods respectively, from New York to Missouri River points via all rail, has created a good deal of comment. What is perhaps even more decided evidence of a prolongation in the rate war, is the fact that yesterday the tariff rates to Salt Lake and all other common Utah points, declined by all roads. These rates formerly stood: From Missouri River points, on first-class, \$2.35; second-class, \$2; third-class, \$1.75; fourth-class, \$1.50; fifth-class, \$1.30; sixth-class, \$1.25; A, \$1; B, 90c; C, 80c; D, 70c. These rates were suddenly, without warning, reduced as follows:

First-class \$2.05, second \$1.80, third \$1.55, fourth \$1.30, fifth \$1.15, sixth \$1.05, class A 92c, class B 82c, class C 72c, class D 62c.

This is the first time during the present freight rate war that rates have been affected further west than the Missouri River except to Colorado points, but it is evident that the reduction in Utah rates was made in direct connection with the rates of the cutting lines to Missouri River points from this city and Chicago. This is regarded as the forerunner of a reduction in transcontinental rates to California and Oregon points. There has been no apparent effect thus far on the part of any line to restore rates except to Colorado points. The withdrawal of the New York, Ontario and western line from the trunk line passenger association yesterday makes the situation more complicated than ever.

Murder and Suicide.

ITACA, N. Y., July 25.—Ben Dutton, a farm hand, went to the house of John Lamont, three miles east of Dryden, last night, and attempted to kill Lamont and Miss Root, a young woman employed in their household. He fired one bullet at Lamont, which took effect in the face, and four at the girl, all of which took effect. Her most serious injury is a wound in the back of the head and her recovery is doubtful. After the shooting, Dutton escaped to the woods. A posse, headed by a deputy sheriff, hunted for him all night and this morning his dead body was found with a bullet through his heart. A paper was also found at the dead man's side marked "strychnine." Dutton had been paying attention to the Root girl, but Lamont considered him unworthy of her, and at his advice, she rejected his suit. Dutton swore to get even with Lamont for interfering, and it was in fulfillment of the oath that the crime was committed. John D. Lamont, the wounded man, is a cousin of Daniel S. Lamont, President Cleveland's private secretary.

California Fruit.

CHICAGO, July 25.—Six carloads of California fruit were auctioned to-day. The pears sold were of very fine grade, in the best condition, and obtained good prices, with the prospect of still higher prices in the near future. Peaches and plums sustained the recent prices. Some of the plums offered to-day were as follows: Early Crawford pears, 85c; to \$1.00; Montpelier, \$1.25; cling, \$1.20 to \$1.50; Denker, \$1.00; Susquehanna, \$1.45 to \$1.50. Plums, \$1.05 to \$1.85; purple Duane, \$1.25; Columbia, 80c; to \$1.20; Magnum Bonum, \$1.10; Washington, 80c; yellow egg, \$1.60 to \$1.75; Bartlett pears, \$2.85 to \$3.20. German pears, \$1.05 to \$1.10; gross, \$1.05 to \$1.25; Hungarian, boxed, \$1.05; crates, \$1.50. Fountain Bleu grapes, crates, \$1.10 to \$1.45; black, crates, \$1.10; nectarines, crates, 30c. to 85c.

Inter-State Commerce Cases.

Dubuque, Iowa, July 35.—The Inter-State commerce commission began a hearing to-day of several cases in relation to the Northwestern Railway rate. A number of railroad managers and Iowa railroad commissioners were present.

The Plot.

SOFIA, July 25.—The object of the plot which was discovered at Rostuch was to murder Prince Ferdinand. Two of the ringleaders, Boguetoff and Ivanhoff, have been arrested.

When They Leave Us.

The exodus of our bodily troubles is doubly welcome if their departure is unaccompanied by pain. It is the fault of the best of commendable cathartics, which act solely upon the bowels, that in operating they gripe and weaken these organs. Hostetter's Stomach Bitters produce a laxative effect, but neither causes pain nor weakens the abdominal region or the stomach. This is pre-eminently the alternative which a constipated bilious or dyspeptic person should use, since a resort to it involves no bodily discomfort nor produces a violent reaction. The liver is aroused, the stomach benefited, and the habit of body speedily and permanently improved by it. Fever and ague, rheumatism and kidney troubles are among the maladies for which recorded experience has proved it to be efficacious. It is a wholesome appetizer, and a far more reliable tranquilizer of the nerves than stomach-disturbing narcotics and sedatives.

Immigration Inquiry.

New York, July 25.—To-day the Congressional committee appointed to look into the immigration affairs of the country at large began its work. The first session of the committee opened at Westminster Hotel this morning. Chairman Ford, of Michigan, and Congressman Morrow, of California, and Gunther, of Wisconsin, were the only members of the committee present, but General Spaulding and Congressman Oates are expected to arrive to-morrow. The New York commissioners of immigration were none of them present at the opening of the inquiry, nor was anyone else there to represent Castle Gardens.

The first witness to take the chair was E. L. Ross, passenger agent of the Hamburg line of steamships. He was questioned about the man in which his company transacted the passenger business. He described the company's system of agencies in this country and Europe. Witness said every person buying a ticket had to present a passport showing that he is allowed to emigrate and has not committed any crime. The company, he said, takes great pains to inspect all passengers, in order that none may come over who would not be allowed to land here.

Boas was questioned closely by each of the committeemen on this passport question and acknowledged that the principal point dwelt on in the document was whether or not the would-be emigrant was liable for military service. Mr. Coverly was the second witness examined. The committee devoted special attention to the Mediterranean business done by his company.

Arthur Lederer, of the Red Star line, thought his line had brought 125,000 immigrants into the country in the past five years. Ten per cent. of the tickets sold in New York are prepaid. A representative of the Italian Society during the recess said the immigrants flock to the society rooms begging relief and making complaints. He was asked why they came here. They did as they were persuaded by flaming placards which adorn their native villages setting forth in glowing terms the advantages of coming to America and promising them profitable employment as soon as they land. The placards they say are scattered broadcast over the land by the agents of New York and Italian bankers, who reap rich harvests from their profits on steamship tickets.

Louis Debbian, agent of the Havre line of steamships, stated the majority of the steerage passengers who come to this port by his line are Swedes. His company only has dealings with ten or twelve local agents, and no tickets are issued to them in blank. The arrivals for the last five years were about 100,000. Very few of their passengers remain in New York.

A. N. Underhill said the Guion line brought about 100,000 in the five years past, mostly English, Irish, Scotch, Hungarians and German, but no Italians. Fully 90 per cent. of the passengers coming over the Guion line go to points beyond New York, a majority of them going to the north-west.

Theodore Chroder, emigrant agent of the North German Lloyd line, gave the arrival over his line during the past five years at \$31,000. The majority were Hungarians, and were mostly prepaid tickets, and were sold by local agents, mostly in the Pennsylvania coal regions. Two-thirds of the emigrants by this line went west of New York.

J. Tierkile, agent of the Fabre line, said the majority of Italian emigrants went west of New York. He acknowledged that at one time he had sold 100 tickets to one party, but he now restricted the number to ten. This was done to prevent speculation. He claimed that Italian bankers realized very little from their commission on passage tickets.

Their Golden Wedding.

LONDON, July 25.—Mr. and Mrs. Gladstone celebrated their golden wedding to-day. Testimonials in the shape of letters, telegrams and presents poured in on them by hundreds. The couple were given a reception at the residence of Earl Spencer this afternoon, and were presented with portraits of themselves, painted by Frank Hall, and Hubert Herkomer, and also with three large silver cups, and an address signed by 150 members of Parliament. Lord Granville made the speech of presentation.

POLICE COURT.

A Rush of Business Before Judge Poyer Yesterday.

There was an unusual rush of business in the Police Court yesterday, when Judge Poyer disposed of the following cases:

L. Richards, Samuel Moffat and James Smith, three plain drunks, were each assessed \$5.

Robert Harman, charged with being drunk and disturbing the peace, forfeited \$20.

Henry Spoke, John Mortford, John Jones, and Samuel Stringfellow, arrested for drunkenness, forfeited \$5 each.

George Lawrence, charged with being drunk, failed to appear and forfeited \$10.

Thomas Helfen pleaded guilty to the charge of beating Charles Tolbert, and was fined \$5.

S. B. Carter was mulcted in \$10 for disturbing the peace.

Elizabeth Charles was sent up for ten days for indulging too freely in her favorite beverage—forty-rod whisky.

Fred Roberts, for drunkenness and resisting the officers, was fined \$20.

The cases of Joe Fok, charged with battery, and William Bess, charged with larceny, were set for to-day.

Charley Wallace will be tried to-morrow for exhibiting a deadly weapon.

Territorial Equalization Board.

The Territorial Board of Equalization holds, it is understood, a meeting this morning, at which the rating of taxes in Utah County will presumably be discussed. The committee is nearing the close of its labors. There has been some talk of testing its decisions by an appeal to the courts. Davis County has had quite a lift; 40 per cent. some declare, and there is wrath in the eyes of all the oldest inhabitants. Here there are threats of an appeal to the courts. But the threat will probably fail of execution, as the board has the last word as to values. The law explicitly declares its decision shall be final. Wherever the board has been there wrath abounds. Our own county is no exception. Its high heels over the matter. It is no trick to persuade a man that his property is of a steadily increasing value if there is a prospect of realizing on it; but it is easier for a camel to go through the eye of a needle than to convince him it is worth more than a continental when the tax collector shows up.

Fellow-citizens, you may just as well accept fate. Taxes will never again be as low as they have been.

BEFORE JUDGE SMITH.

Business Transacted in the Probate Court, Yesterday.

Estate of A. F. Guivits, deceased; order made of sale of real estate.

Estate of Elmi A. P. Tufts, deceased; order made appointing time and place for settlement of administrator's accounts, and to hear petition for bar of sale of real estate.

The Burlington Troubles.

ST. JOSEPH, July 26.—Consideration of a proposition looking toward an adjustment of the difficulty with the Burlington road occupied this morning's session of the great convention of railroad employees now meeting here.

Great pressure, it is understood, was brought to bear on the heads by the more conservative element to maintain the 3 1/2 and 4 cents a mile schedule, and the classification clause.

Chief Sargent left last night for Chicago, where he claims he has been called by urgent business. It is certain that neither Monaghan, Sargent, Wilkinson nor Arthur, heads of the four great organizations, will take part in the convention. Hope and Murphy were expected here this morning, but did not make their appearance.

The Plot Thickens.

CINCINNATI, July 25.—This afternoon, Albert Metter, who, yesterday, went upon the bond of Ives and Stayner, brought suit against them for \$3,000, which he claims is due him, on the sale to them, of \$250,000 of the Cincinnati, Hamilton & Dayton stock. A hotel-keeper also sued Ives for a \$500 board bill, incurred in 1887.
